

First Aid Refresher Guidance

Background

One of the NARCH registration requirements is the provision of documentary evidence that the RCH holds a valid Canine First Aid Certificate. RCHs are required to refresh their Canine First Aid knowledge on a regular, rolling, two-year basis.

Veterinary surgeons and **practising** registered veterinary nurses may request an exemption from Canine/Feline First Aid refresher training.

Canine First Aid Refresher Courses

RCHs may refresh their initial first aid training by either attending an attendance-based first aid refresher course or by completing an on-line first aid refresher course. Both types of course must be offered by course providers that meet NARCH requirements both in terms of course content and tutor qualifications.

All refresher courses are valid for 2 years and if the previous first aid refresher renewal was achieved via an on-line course, the RCH must complete an attendance-based first aid refresher course. All courses must be supported by an attendance certificate bearing the title of the course, the name of the student, the date, the course provider, the tutors name and qualifications and the number of CPD hours awarded for the course.

Course content requirements for Attendance-Based Canine First Aid Refresher Courses

1. The course would be expected to last between 4 to 6 hours in duration.
2. The course must include both theory and practical application in equal parts using wherever possible, live subjects.
